

Now Submitting Sales Leads Is a Snap

With our new JMA Lead portal, your leads get the Verizon Wireless treatment.

Sales opportunities are fleeting, and fast action can mean the difference between a big deal and a missed one. That's why we've created the new JMA Lead portal, a site where you can submit sales lead information to Verizon Wireless. It's fast. It's online. And it makes passing along those opportunities easier than ever.

Our online system will do most of the work for you. Simply enter the information and it will route to the appropriate sales representative—a real, live person who will follow up with you soon to get the full story.

The JMA Lead portal integrates with our sales tracking system and will help us better serve prospective buyers throughout the entire sales cycle. This means your customers—your leads—will get the same care and service we give to our own leads.

Give it a try today. Bookmark the new JMA Lead portal now at verizonwireless.com/jmalead. Or, get more information on the portal and other sales force tools by visiting the ZON at vzwdevelopers.com/aims.
